

THE FRED J. KIESEL CO. GENERAL AGENTS

Have received the subjoined:

To Our Friends and Patrons:

The California Winery doesn't make a practice of tooting its own horn very much and therefore asks your indulgence for send-ing the following short item of news that came to us a few days ago telegraph from Seattle, from The Alaska-Yukon Exposition "California Winery awarded gold medals for seven of its wines

above all other California competition—Cordova, Sauterne, Claret, Zinfandel, Burgundy, Port, Sherry and Angelica. Silver modal for

This is indeed good and gratifying news to us and will be wel-comed, too, by our many friends and patrons. It is all the more satisfying because we were not aware the wines were being judged, and even at this writing, do not know who the judges were. We believe, therefore, that true merit must surely awards to "Cordova, the Wine of Quality." have provoked the Very truly yours, CALIFORNIA WINERY,

E. M. SHEEHAN, Vice-Pres. and Gen. Mngr.

OF AT THE BIC AUDIENCE AT

That widely advertised play-"A presented to Ogden theater-goers last night at the Orpheum theatre, to a growd which filled every available seat and overflowed to the standing

The simple, honest characters of the South portrayed by the members of the cast together with the wholesome story of Southern life were comed as something decidedly differ-ent, by the audience,

The plot and intrigue woven into the comedy are worthy of special mention, if only for the smooth and easy manner in which the story it-

The work of the company is excellent in their individual interpreta-

tions of the parts assigned to them. It would seem as though one were witnessing a drama of real life in-stead of "stage work," each member of the cast working as naturally as life itself.

The story of the play appeals to the finer feelings and sympathies of the audience. It is put together with a careful consideration of every sit vation, and especial attention to each of the four climaxes. The serious dialogues are intensely dramatic while the comedy of the play is gen-

The work of James Lackage as Senator Langdon, was a treat for the spectator. His simplicity; truthfulness of manner and honesty of pur pose, not to mention his successful Mempts to amuse the audience with

Sonality were warmly appreciated.

That he was made senator to be a party tool is the best joke of this thoroughly humorous and delightful play. He turns the joke in the end. wholly but generously discomfiting his enemies. Their plan was to secure his influence and vote in the selection of Altacoola as a naval base. One congressman entangles the senator himself through a worthless son in the disreputable land deal in Altacoola, which depends for its val-ue on the establishment of the naval base. Notwithstanding this complication, the senator remains firm, the son and daughter must "take their medicine," and he refuses to profit by the transaction. He also is resolved

ment is a masterpiece. Senator Langdon declares that he will go before the senate, where he is scheduled to speak, and, in recommending Alta-coola as the proper naval base, ex-plain that he and other senators, in order to prevent the defrauding of the government, themselves bought all available land in the place, which they are prepared to turn over at the price paid for it. Then he defies the corporation senators to deny this before the senate,

Curtain calls were numerous, inthe entire company receiving full evidence of the spectators pleasure. Osborne Searle, as "Bud" Haines.

the newspaper man, who was later the secretary of the Senator, proved a satisfactory second part. His serious lines were admirable, and his love-making, which was rather confusingly done, furnished considerable

The ladies were held somewhat in the rear, but their parts were done as the author would have intended.

Virginia Pearson as Carolina, the senator's daughter, was strong in her dramatic lines, and Minette Barrett as Hope-Georgia, the sister, furnished an interesting and pleasing addition

The other members performed in a creditable manner, making the show one of the best which has appeared here for some time.

For those who arrived on time, the pleasure and comfort of the first act was marred by the confusion of seat-ing belated patrons. This custom may be all right for vaudeville, but in dramatic presentations, the practice put in force last night simply places a premium on laggardness and infringes on the comfort of those who are prompt,

Latonia Results.

Latonia, Nov. 1.-First race, five and a half furlongs: Tortuous 10 to 1 won; Eleanor Robson, 7 to 2 second; Captain Glore 10 to 1 third.

Second race, six furlongs: Aspirin, 7 to 2 won; Etheld, 15 to 1 second; Margaret T. 10 to 1 third. Time 1:14

Third race, mile: Lady Esther, 10

to 1 won; Lawrence P. Daley, 7 to 5 second; Tom Hayward, 8 to 5 third. Time 1:40 1-5. Fourth race, six furlongs: Calash won; Belle Clem, 4 to 1

second; Donau, 8 to 5 third. Time Fifth race, mile and seventy yards: Bruce Rice, 7 to 2 won; Waldo Briggs, 2 to 1 second; Otillo, 10 to 1 third.

Sixth race, seven furlongs: Autoporation men, but does not see his
way clear.

ELECTION FRAUDS

Jackson, Ky., Nov. 1 .- With a large number of state militia in control and an undercurrent of apprehension over the tense situation, people were won-dering tonight what the election would bring forth for "Bloody Breat-Both Democratic and Republican managers charge each other with trying to steal the election, Circuit Judge J. P. Adams, the incumand Republican candidate re-election, who made the request on Governor Wilson for militia to pre erve order during the election to night said:

In requesting troops I was heeding the appeals of the good people to take immediate action to prevent a conflict and to preserve peace and order among the people. Men led by Ed. Callahan, armed with rifles were in the upper story of the old Hargis building and were issuing threats of death against the citizens and officers and they had commenced to terrorize the town by shooting on the streets when I sent the message to the governor for troops.

"I felt it my duty not to wast until men were killed before taking steps to bring about peace and good order and I have no doubt the presence of the troops prevented disorder and no doubt saved many lives.

O. H. Pollard, chairman of the Democratic campaign committee

crats have combined with the whisky forces and have done anything to precipitate election troubles are un-true. The Republicans have determined to defeat a fair election and to resort to any fraud they could conceive in order to defeat the will of the people.

A large majority of the people are supporting the Democratic nominees. The excitement was caused by the action of county court by giving the officials ballots for one of the pre-cincts to a man named Sebastion, two days before the day fixed by law for distribution. When the ballots arrived they were deposited in the Jackson bank for safe keeping by the

"In violation of the agreement that the ballots should be delivered to the regular clerks of election, the county clerk by a pre-arranged plot between the Republican leaders took an armed lots for the Crockettsville precinct on Friday and delivered them to Se bastion, who was not a clerk of elec-

"We procured warrants for the clerk and when Sheriff Crawford went to arrest Sebastion he was confronted with an armed force twenty strong, who defied the sheriff. "The sheriff saw he was unable to

make the arrest except by force and to prevent bloodshed he let Sebastion and his force leave town.
"All this trouble was brought about

by Republican officials in their determination to take the election. Their action in respect to ballots and the presence of soldiers under command of Judge Adams, who refused to put them under command of Sheriff Craw ford, as required by law, has created indignation on the part of the law-abiding citizens, irrespective of

mountain men headed by Sheriff Callahan left their entrenchment in Jackson shortly after the arrival of the Lexington militia company and then the soldiers followed them 22 miles into Crockettsville, the home of Callahan and the voting precinct that is expected to furnish most of the excitement tomorrow

The population is quiet but inclined to wait anxiously word from Crocket-tsville, where the soldlers, the Callahan, Smith and Deaton factions are also stationed. Scenes today on the streets of Jackson the capital of the Hargis political wars of a few years ago and the feudal center of the United States.

Callahan, leaning on the arm of two women relatives to ward off an assas sin's bullet which he lives in fear of was perhaps the most prominent fig-

Circuit Judge Adams, the Republcan candidate for re-election and Judge R. E. Edwine, his Democratic opponent harrangued an audience in the court house of Breathitt in which feudists, soldiers and peaceful citizens were strangely mingled

As both candidates begged for law

and order the Callahan party armed and booted, passed through Jackson to their horses and retired to Crocket-

It will be determined tomorrow by Judge Adams whether troops will be sent to Oakdale, another Breathitt precinct in which trouble is feared.

The voting place at Crockettsville and at Oakdale was changed recently to a point half way from the lands of Callahan and Berry Turner, a Bret-hitt County "type" and in the middle of a clearing buttressed in a circuit by shelters for the species of sharpshooters of whom the Breathitt citizen is wary. With the soldiers present, however, no successful disorder

UTAH MINING REVIEW.

In the New York Bonanza property, in the Park City camp, at a point about 935 feet from the surface the shaft entered the black lime and driving through this for some ten feet, a change of formation was encountered. The formation is well mineralized with from and gives indication of being a capping for an ore body. Sinking will be continued. There has been little difficulty in handling the flow of water and from present indications the water from all portions of the workings will distinct of the of the workings will drain off of its own accord and leave the property in good condition for further exploration

Captain William Hatfield is meet-ing with good results in the opening up of the Opohongo mine in the Tintic camp, adjoining the Black Jack. The property is being reached and opened up through the 300-foot level of the Black Jack. A good body of copper ore was exposed recently, and drifted on for some 20 feet and so far neither wall has been encountered. The ore has a width of 6 feet and is about s feet high, and averages from 6 to

10 per cent copper. At the Iron Blossom, as the lime has been run out of and the porphyry entered, the ore has also been run out of. The ore here makes only in the lime and follows the lime belt The course of the lime belt has turned and the ore should make the course. and the ore should make in it, and to prove it it will be necessary to follow the lime, which is taking a more westerly course. The ore is not all out of the mine, as there is a streak of ore on the 110-feet level from No. 1 shaft that will average 20 per cent

copper and in another section there AN UNUSUAL CASE is a large body of shipping ore blocked out which is not being touched at present.

At the Utah Gold and Copper prop-

erty, in Beaver county, pure galena has been encountered by the crosscut tunnel. On the tunnel level drifts have been run both ways on the with the ore showing stronger to the

south. A new strike has been made on the Emancipator vein of the Silver Island Coalition. A new tunnel was started in a northerly direction and after passing through a broken formation, encountered the vein and found it in place. A new tunnel is to be started that will give 150 feet of stoping ground. The richest part of the vein is narrow. Several sacks of ore tak-en out of the strike showed well in opper, silver and lead. The Boston-Sunshine Mining Co.'s

cyanide mill is treating about 125 tons of ore daily

The Daisy Combination Mining Co. has been formed and taken over the Daisy and South Daisy proper ties. It is a close corporation with E. S. Lever and Arthur Murphy as the principals. With the application of the process now in use at the Con. Mercur and the Boston-Sunshine, it Is believed that the ores of the properties can be successfully treated. The Old Daisy cyanide mill will be util-

The Tintic-Standard has cut a welldefined vein at the 600-foot level of the vertical shaft. The vein is mineralized, showing, however, that the eralized, showing, however, that the principal values are leached to a greater depth. The shaft will be continued to the 700-foot level. It is probable that at the 700-foot level, a drift will be run to the south to catch the ore shoot that has been tapped on the 400-foot level. Recently, in making an excavation for the tank house short distance to the southeast of old incline shaft house, a vein showing galena ore was uncovered.

At the Iron King, in Tinctic district, a new engine, blower and pipe line are being installed, so that more rapid progress may be made in driv-ing the tunnel. An average of 4 1-2 feet a day has been made, to date. The tunnel is now in something over

At the election of officers of the company in Ajax Tintic district, Colonel C. E. Loose was chosen president; A. C. Ellis, Jr., vice-president; P. J. Peterson, treasurer, and J. M. Burt secretary. It is expected that the development of the Golden Chain group and possibly two others, which are controlled by Colonel Loose will be undertaken, and be done through the old workings of the Ajax, which have attained a depth of 1,200 feet

FRANCE REPLIES WITH HIGH RATES

Washington, Nov. 1 .- France's Roland for Americas Oliver is the ac-tion of Paris government in putting in effect today the maximum tariff on goods coming from the United It did not surprise treasury Ever since notice was given to Paris that the reciprocity agree-ment with its low rates on both sides of the Atlantic so far as the two gov ernmens were concerned would ex pire at the end of October, this coun try has been anticipating the step at Paris today

This government cannot directly meet the French maximum until next spring but the question of what to do has been canvassed,

Sparkling wines seem to be the most volunerable point, for officials and the unofficial talk of prospective substantial raising of that figure to the American maximum when the opportunity comes on March 31, have not helped French sentiment toward the United States. It was hardly to be expected, as treasury officials view it that France would figuratively "Sit idly by." M. Cruppi, former French minister of interior not long ago pointed out that France must consider her own interests; that the com-mercial development is of primary importance and referred to the United States in her "splendid isolation" as snapping her fingers at the world.

Meantime it had been reported that a preservative in the French wines might prove an available weapon of retaliation because of its possible inclusion within the articles declared injurious in the pure food and drug

injurious in the pure food and drug law. Official inquiry along this line has not assumed any definite shape.

"The proclamation of a tariff war would be monstrous," declared Ambassador Jussared of France shortly after his arrival at Paris less than three months ago. He conferred with his government and expressed the conviction that maximum rates would conviction that maximum rates would not be applied to French imports. Later he returned to America still hope ful of some satisfactory arrangement.

The subject will engage the at-tention of the new board appointed by the president to advise with him particularly regarding the maximum and minimum features of the new tariff law. Meantime France has taken a stand where she can make con-csesions and the United States is stopped by law from applying the same maximum policy in the time intervening between now and April 1. Officials on both sides are looking forward to eventuall conclusion of some amicable arrangement.

Ivory Soap is not a "time saver"; or a "labor saver." Nor does it "make dirt fly."

But it will clean as quickly as is consistent with safety; and it can be used for hundreds of purposes for which ordinary soaps are unsafe and unsatisfactory.

Ivory Soap 99 44 100 Per Cent. Pure.

BEFORE U. S. COURT

Washington, Nov. 1 .- The unusual case of arraignment for sentence at the bar of the supreme court of the United States will be witnessed two weeks from today, in accordance with an announcement today in the cases of Joseph H. Shipp, of Chattanooga, Tenn., and five co-defendants charged with contempt.

The cases originated in the courts deciding in March 1906, to hear the appeal of a negro, Ed. Johnson, from a verdict of the Tennesee courts, holding him guilty and sentenced to be hanged on a charge of criminal assault. The night after the determina tion of the supreme court to review the proceedings in the case was wired to Chattanooga, where Johnson was confined to jall, a mob stormed the jall and took him out and lynched

The court was incensed and at its instance the attorney general instituted proceedings against Shipp, who was the sheriff and 25 others, including the jailer, supposed to have been implicated in the lynching, charging them with contempt of the supremo Six were found guilty. These were Sheriff Shipp, his deputy, miah Gibson, who was the jailer, Lu-ther Williams, Nick Nolan, Henry Padget and William Mayes, residents

The defendants entered motions for

a rehearing with the effect of post-poning action until the present term court today, through chief Jus tice Fuller announced its denial of the motions, the chief justice at the same time ordering the defendants to appear on Nov. 15 to receive sentence. The court has the discretion either to fine or imprison the men or to in flict both penalties. It is only known that the court has appeared excep tionally interested in the case and is believed to feel that an example must be made. It is recalled, how ever, that several of the members of the court, among whom was the late Justice Peckham, dissented from the lecision which may have the effect of lessening the severity of the sen-

The only instance of a sentence for contempt in the court's history oc-cured in 1875, when John Chiles, who was concerned in dealings in Texas indemnity bonds contrary to an or der of the court was ordered to pay

All the defendants assert innocence Shipp and Gibson declare there was advance indication of violence to Johnson and say that otherwise they would have taken other precaution. Some of the men implicated claim to been present when the negro was killed by the mob.

INTEREST IN STOCK MARKET IS LANGUID

New York, Nov. 1.-Operations in tocks today were of an exceedingly desultory character and the interest in the market was languid in ad-vance of the holiday tomorrow. The observance of All Saints holiday in London and Paris today also subtract ed materially from the volume of the day's business and deprived the mar-ket of an index of sentiment on the jump from \$6 to \$9.60 per dozen in the duty on champagne which was that the restoration of regular to the dots of the control of the duty on champagne which was that the restoration of regular to the duty on the duty on the duty on the duty on the duty of th that the restoration of regular tariff aging news from abroad and this was means at the United States ports a prime factor in the early rise in prices' of stocks here. statement of the German bank disclosed some heavy inroads on resources, incident to the November settlements and the private discount

rate in Berlin rose a fraction.

The Bank of England secured all of the \$3,500,000 South African gold arriving in the London market with-out competition, and at a further recession in the price, which wipes out, in effect, the recent premium over the obligatory price to be paid by the bank which has prevailed while other centers were competing for London gold supply. This was looked upon as gratifying evidence of the satisfactory progress of the recuperation in the Bank of England's condition. The effect was helpful to York stock market, notwithstanding the absence of direct operations in the local stock market on behalf of London.

There was a striking diversion of speculative effort to low priced industrial stocks and specialities while the more prominent trading stocks were neglected. The minor members of the steel group, especially the railroad equipment stocks, were conspic-uous. The influx of new orders for equipment from the railroads was partly responsible for this movement. Something was made of the reports

of large sales of copper metal in the last few days, but the copper indus-trials did not hold well and sagged with the receipt of copper quotations from London, showing a decline in The speculation looked somewhat

askance at the terms announced for the new Pennsylvania stock which was at a lower price than had been anticipated. As between the increased value of the subscription rights to the individual stockholders and the low credit for the corporation involved in the issue at par of a stock selling in the market in the neighborhood of 148, the appraisement of the operation was somewhat confused. The resort to a stock issue at all in place of a bond issue is testimony to the faulty investment demand for fixed interest bearing securities which has been remarked in the bond market throughout the latter stages of the active speculative demand for stocks. The six per cent dividend rate now existing on Pennsylvania railroad stock and left un-changed by the day's declaration rep-resents, if maintained, a high rate for new capital. The proceeds are to provide for the payment of \$60,000,000 of collateral notes which bore seven per cent and of \$20,000,000 of six per cent bonds falling due next year.

The stock market tone became somewhat drooping after the news of the Pennsylvania directors action.

Bonds were irregular.

Total sales par value, \$3,393,000.

United States 2s declined 1-4 per cent on call

Odd settings are a feature of muc

Anty Drudge in Court.

Prisoner's wife (relenting)—"Yes, he did strike me, but it was partly my fault. I was washing all day and was bad-tempered, and didn't have his dinner ready." Anty Drudge-"Please your Honor. If you'll just sentence the prisoner to buy his wife Fels-Naptha soap it will end their wash-day fighting. She won't have half as much work then, and there'll be plenty of time to get dinner. She won't be tired and cross, either."

Do you spend 52 days of the year washing clothes? Fifty-two days bending over a tub of nauseous, steaming suds and 52 days of hard-rubbing on a washboard? Then stop it. Nature didn't intend any woman to work like a slave. Fels-Naptha will cut down the time spent in washing at least half. It will cut out the boiling, the steaming suds, the hard-rubbing.

Fels-Naptha will separate the dirt from your clothes while soaking in cold or lukewarm water so that a light rubbing and a simple rinsing will leave them clean and pure—ready for the line.

Look for the red and green wrapper.
